

Cable Handling Equipment

Electric Blowers, Draw Lines and Line Carriers

Description:

Electric drawline blower, 240V (10A), 2 stage, each motor will deliver approx 3.5 cubic metres of air per minute (7 cubic metres in total) at a safe low pressure. This unit will effectively blow a lightweight drawline up 1000m of lubricated, unoccupied conduit. Weatherproof (IP56) switches, separate fan from motor for longer motor life. Rubber feet isolate unit from the ground, kamlock fittings on hose pipe

Code: DBI-02

Weight: 3.2kg

Flexible plastic airhose 50mmdia, 5m length with end fittings CODE DAH506

Conduit seal off 13-25mm ID Code DAH020

Conduit seal off 63-150mm ID Code DAH040

Conduit seal off 32-63mm ID Code DAH 030 (not illustrated)

Foam carriers for short runs in small to medium size conduits or to pre-lubricate the conduit, available for the following size conduits

20mm ID Code DFC-020

30mm ID Code DFC-030

40mm ID Code DFC-040

50mm ID Code DFC-050

80mm ID Code DFC-080

100mm ID Code DFC-100

Balloon Line Carriers, shaped like a balloon, with a rigid plastic mouth to ensure balloon stays inflated, available for the following size conduits

50mm ID Code DBL-050

80mm ID Code DBL-080

100mm ID Code DBL-100

125mm ID Code DBL-125

150mm ID Code DBL-150

190mm ID Code DBL-190

225mm ID Code DBL-225

Cable Handling Equipment

Electric Blowers, Draw Lines and Line Carriers

Bag Line Carriers – nylon fabric bag, available for the following size conduits

35mm ID Code DCB-035

50mm ID Code DCB-050

80mm ID Code DCB-080

100mm ID Code DCB-100

125mm ID Code DCB-125

150mm ID Code DCB-150

190mm ID Code DCB-190

225mm ID Code DCB-225

Drawline, polypropylene lashing, 4mm dia x 850m length rolls Code DL-4850

Weight 3.6kg

Metal carry box, galvanised sheet steel with lock & key Code CKC-800 Weight

4.6kg
