

# Insulating Covers

## Fastening Clamps & Hooks for Drape

**Description:**

Fastening clamps and hooks are manufactured from strong non-brittle plastic. Clamps are available in two lengths, a short and long. Handles have rubber inserts in the jaw to improve friction grip. The safety clamp ① is supplied with a link that enables any number of clamps to be linked or joined together. 'S' shaped hooks are 10mm in diameter. Plastic eyes for the hooks are supplied in pairs and clip together and require an 18mm dia hole to be punched in the drape. 1000V insulation.
