

Insulating Tools - Screwdrivers

Flat Blade

Super grip
Code 1111---

Power grip
Code 1113---

Square grip
Code 1115---

Description:

The blades are made of chrome vanadium-molybenium steel, hardened, burnished finish, tapered and in accordance to DIN5264. Insulation is directly applied to the blade. There are three types of handles: Super grip, Power grip and Square grip. All handles are made of non-brittle cellulose acetate, red colour, cadmium and splinter free and resistant to oil and acid. 1000V insulation.
